- old bronze – an American fastening;
5 mm rings

- a 0.20 mm nylon line; two thin needles;
scissors; flat nose pliers (for handling the rings)

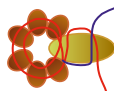

Difficulty: ●●●●●

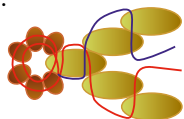

Procedure:

Step 1:
Cut off about 2 m of line. String needles on both ends. You will alternately sew with the right (the red line) and the left (the blue line) ends.

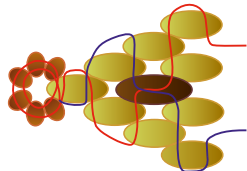

Step 2:
String 1x T and 6x R10. Slide them to the middle of the line. Thread the line through everything one more time. Thread the line through the hole in the T again. Thread both ends through the second hole of the T.

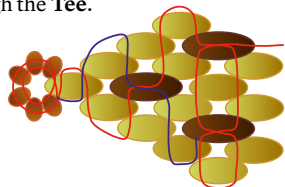

Step 3:
String 2x T on both ends. Also thread the line through the second hole in the first strung T.

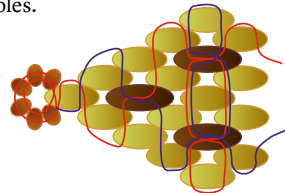

Step 4:
String 1x Tee on both ends. Continue by stringing 1x T. Thread the line through the second hole of the earlier strung T. String 1x T and thread the line through both holes.

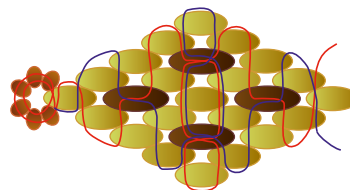

Step 5:
Now string 1x Tee, 3x T and 1x Tee on only one end of the line. Thread the line through the second hole of the earlier strung T. String the top T from the diamond and thread the line through both holes. String 1x T. Thread the line through the earlier strung Tee. Connect the 3 T in the middle of the diamond. Thread the line through the Tee.

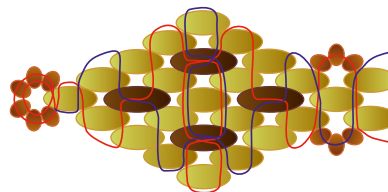

Step 6:
Thread the line through the T and the Tee strung in Step 5 in the opposite direction. String the second top T in the middle of the stringing and thread the line through both holes. Add 1x T. After threading the line according to Step 5, thread both ends of the line through the outer T and their second holes.

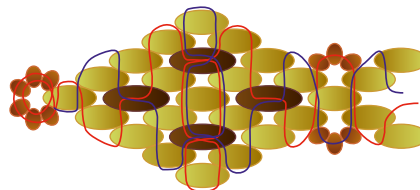

Step 7:
String 1x T. The second holes of the earlier strung T. String a Tee on both ends of the line. String 1x T. Thread the line through the earlier strung T. Thread the line through the second hole in each protruding T. String 1x T. Thread the line through the second hole of each protruding T.

Step 8:
String 3x R10 and 1x T. Thread the line through the second hole of the T on the point and once again through the hole in the T strung on the opposite end.

Step 9:
String 1x T and thread the line through the second hole of each previous T.

Step 10:
Continue sewing the diamond. Sew according to Steps 4-9 four times.

Step 11:
Sew the last diamond according to Steps 4-7. Also thread the line through the second hole of the last strung T. String 6x R10 on only one end. Thread the line again through the hole in the T. Tie off both ends and sew them in.

Step 12:
Attach the fastening using the metal rings to the rocaille rings; the „circle“ with one ring and the „T-bar“ with three rings.
