## Intro

This project is Class 3 of our Superduo September series, where we are creating together a whole set of jewelry, including earrings, a necklace, a pendant, and bracelet! Here is a step-by-step of the Puffy Star Pendant!

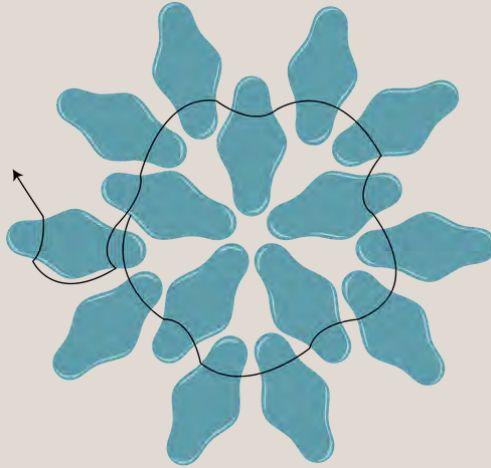

### Step 1

Cut 36" [92 cm] of thread. Pick up 5 Superduo beads in Color A. Leaving an 7" [18 cm] tail, go through all the beads again and exit from the last Superduo added. Pull tight. Turn and go through the top hole of the last Superduo.

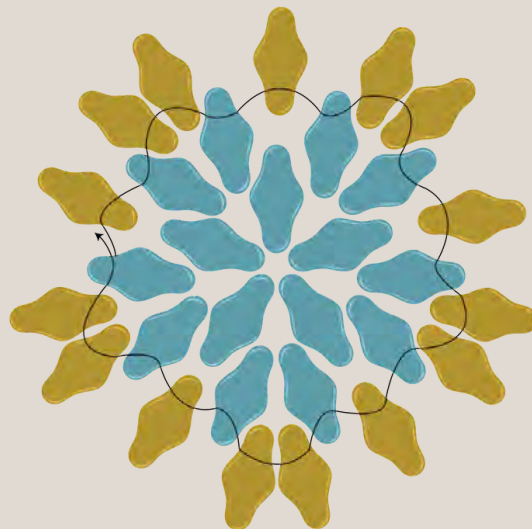

## Step 2

[Pick up 2 Color A Superduo beads and go through the top hole of the next Superduo] five times. Go through the bottom hole of the next Superduo, then turn and go through the top hole of that Superduo.

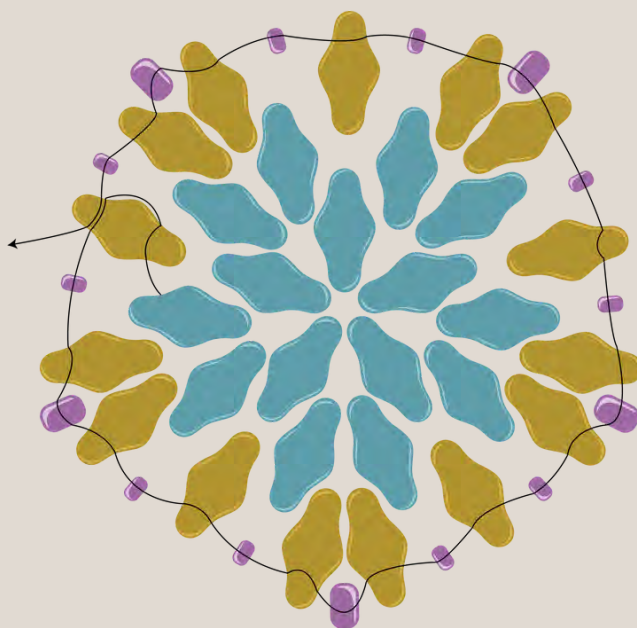

## Step 3

[Pick up 1 Color B Superduo and go through the top hole of the next Color A Superduo. Pick up 2 Color B Superduo and go through the top hole of the next Color A Superduo] five times.

## Step 4

Go through the bottom hole of the next Color B Superduo. Turn and go through the top hole of the same bead. [Pick up 1 Size 10 bead, go through the top hole of the next Color B Superduo. Pick up a Size 6/0 bead and go through the top hole of the next Color B Superduo. Pick up a Size 10/0 bead and go through the top hole of the next Color B Superduo] five times. Go through all the beads one more time, reinforcing and tightening this step. The star will form into a bowl shape.

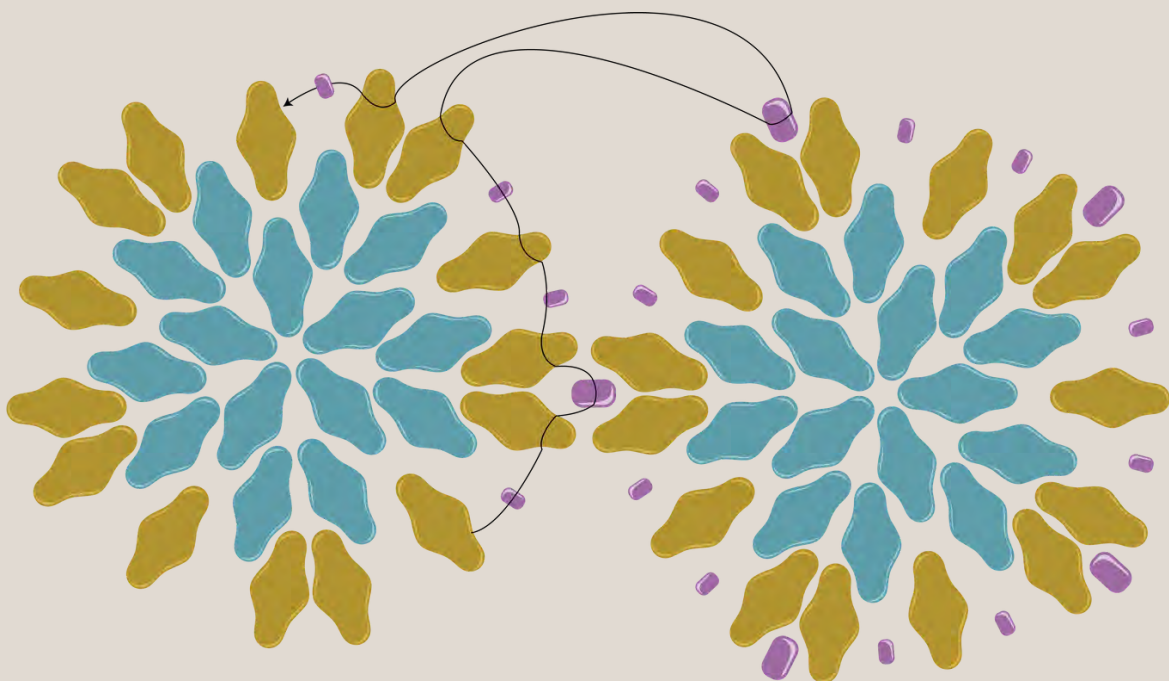

## Step 5

Weave in the tail and working threads and set aside this piece (see Tip on last page for weaving in). Repeat Steps 1 through 3. to create a second star.

## Step 6

Set the pieces side by side. Working with the second piece, pick up a size 10/0 bead and go through the top hole of the next Color B Superduo. Go through the size 6/0 bead on the first piece. Go through the top hole of the Color B Superduo on the second piece. The two pieces will close together, one on top of the other, over the next steps.

[[Pick up a Size 10/0 bead. Go through the top hole of the next Color B Superduo] twice. Go through the size 6/0 bead on the first piece. Go through the top hole of the Color B Superduo on the second piece.] four times. Pick up 1 Size 10/0 bead, go through the top hole of the next Superduo. Continue through the next size 10/0 bead and around the star, reinforcing the connection. Weave in working and tail treads and trim.

## Step 7

Insert your chain of choice under one of the size 6/0 beads in your pendant.

### Tip:

To weave in thread, it is okay to tie a half hitch knot in a couple places for each strand weaving in. It is easiest to do this after exiting a Superduo bead then next going through a seed bead. Trim after the seed bead.
