

Zip Tie Tiaras!

DESIGNED BY NANCY DONALDSON

John Bead
ESTABLISHED 1954

What You'll Need

Plastic Hair Bands

Choose a size appropriate for your project

71811458, 71811459, 71811460, 71811463

Glass Stone Trim

95050037-00, 95050038-00

Assortment of Florals, Feathers, Acrylic Flatback Rhinestones, Filigree, Laces, Trims and Fashion Embellishments

Tools

Glue E6000 Clear 88824951

All Purpose Scissors 74509712

Wire Cutter 74524870

Hardware Supplies

Zip Ties, bulk

Spray Paint

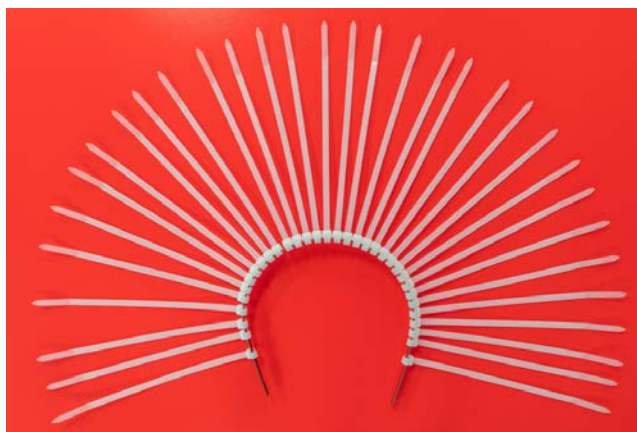

Step 1 - Plan and Layout Your Design

Plan your design to help determine the hair band thickness your project will require. Lay out the zip ties of your design and place the hairband on top. Arrange around the hair band and florals, feathers, and other embellishments you plan to use.

Tip: snap a photo with your phone to remember details of your layout, as well as the zip tie count and spacing.

Step 2

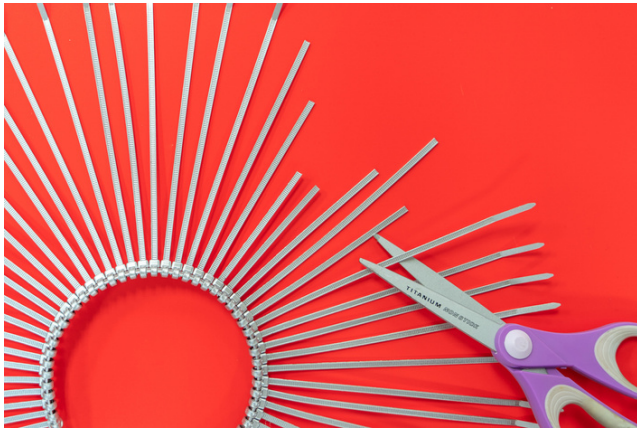

Begin attaching zip ties to your headband. You can start in the middle if your design has a center point, or on the side. Tighten your zip ties until they hold in place. If desired, apply a small amount of glue to the ties against the band.

Step 3

Using spray paint, follow the paint manufacturer's instructions and coat each side of the tiara. Allow to dry completely.

Tip: Glue any embellishments you wish painted prior to this step and let dry. Then proceed with Step 3 to coat the arrangement in paint (see golden floral design).

Step 4

Trim ties as desired and embellish your design. Get creative with color and embellishments to make this project your own!
