Beading Mat SKU 10348546

Skill Level - Intermediate

Time to Complete - 1 Hour

Create a shaped cuff with John Bead Czech Glass Seed Beads to feature a strand of gorgeous, glass pearls! In this project we will create two-column, flat, right-angle-weave and embellish it with 4mm glass pearls. As the pearls are added, the cuff will begin to form a curved shape. The bracelet is embellished along each side with seed beads. Create this design in any colors!

Legend

S6 - Size 8/0 Seed Bead

S11 - Size 11/0 Seed Bead

GP - 4mm Glass Pearl

Step 1

Cut 75" [191 cm] of Wildfire Beading Thread. Note you can use .006 or .008 size. Thread a Size #10 Hard Beading Needle and fold over the thread to a comfortable working length. Leaving a 15" [38.1 cm] tail, pick up (4) S6 beads and pass back through all the beads again. Continue through the next (2) S6.

Step 2

Pick up (3) S6. Pass back through the S6 your thread was exiting. Repeat this pass through all the beads again, then continue through the next (2) S6.

Step 3

Pick up (3) S6. Pass back through the S6 your thread was exiting. Repeat this pass through all the beads. Continue through the next S6.

Tip: The thread only enters a bead that is at a right angle to it.

Step 4

Pick up (2) S6. Pass through the top bead of the row below. Continue through the next S6 at a right angle to it. Pass through all the beads again, then continue to exit from the first S6 added in this step.

Step 5

Pick up (3) S6. Pass back through the S6 your thread was exiting. Pass through all the beads again. Continue through the next (3) S6 and then go through the S6 in the next column.

Step 6

Pick up (2) S6. Pass through the next S6 at a right angle and pass back through the S6 your thread is exiting. Pass through all the beads again. Go through the next (2) S6.

Step 7

Repeat Steps 2 through 6 to desired length. Tip: add 1/2 "[1.27 cm] to desired length.

Step 8

With your thread exiting from the position shown in Step 6, go through the next S6 at a right angle. [Pick up (1) GP and go through the next S6 that is straight on from the one your thread is exiting] to the end of your bracelet.

As you add each GP bead, your bracelet will curve as you go.

Turn and go through the next S6 at a right angle.
