ESTABLISHED 1954

In this class we will learn a fun spin of brick stitch on a component. Create a ruffle design using John Bead Czech Seed Beads. This design can become a pendant, earrings, or both!

### Abbreviations

S8 - Size 8/0 Seed Bead, Barley Ivory

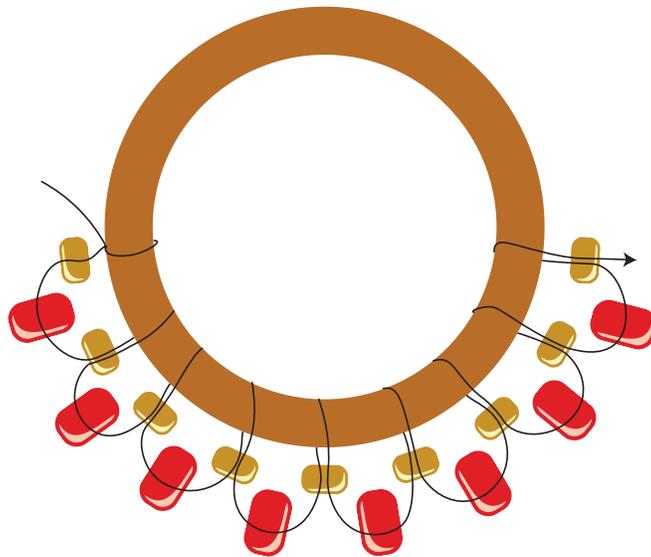

S6A - Size 6/0 Seed Bead, select desired color from the Amber Mix

S6B - Size 6/0 Seed Bead, select desired color from the Amber Mix

S11 - Size 11/0 Seed Bead, select pink metallic or silver-lined gold

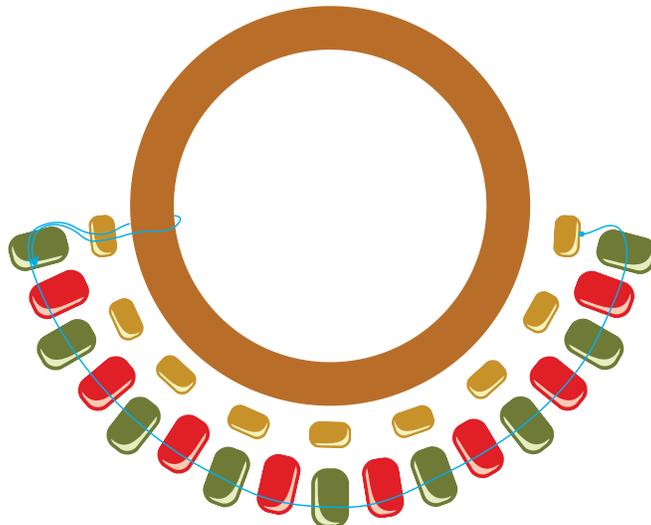

### Step 1

Cut 40" of beading thread. Leaving a 7" tail, tie a double knot onto the ring component. String (1)S8, (1)S6A, (1)S8. Needle under the ring and through the center of the ring. Come back through the last S8. [String (1)S6A and (1)S8. Needle under the ring and through the center. Come back up through the last S8] seven times.

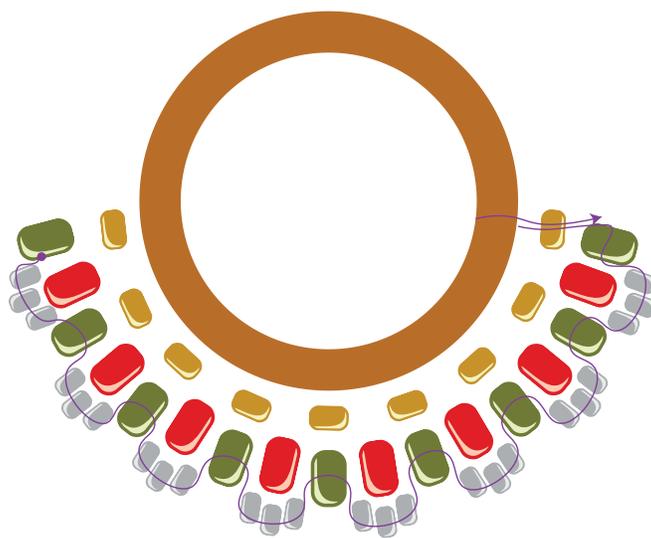

## Step 2

[String (1)S6B. Go through the next S6A] eight times. String (1)S6B. Go through the next S8, needle under the ring and up through the center. Come back through the S8 and S6B.

## Step 3

[String (3)S11. Go through the next S6B] eight times. Go through the next S8, needle behind the ring and come up through the center and back through the S8. Weave the working and tail threads into the beadwork on each side. Tie a half-hitch knot if desired above an S8. Go through the next bead and trim.

## Step 4

Cut the desired length of cotton cord and fold to find the midpoint. Bring the loop through the ring and bring both ends through that loop, forming lark's knot. Sting a 10mm wooden bead and a 7-8mm metal spacer onto both strands. Tie an overhand knot with both strands above the spacer. Tie an adjustable knot, or use cord ends and a clasp, to finish your necklace. In class we will demo an adjustable knot.

## Earrings!

To make earrings, create the above design with 15 repeats of S6A in Step 1, then complete the rest of the design as described, plus the additional counts. At the end of Step 3, instead of going through the S8 again, string (8)S11 and go through the S6B on the other side. Reinforce this and weave in thread. Open the loop on an ear wire and connect to the center of the S11 strung.
