*John Bead*  
ESTABLISHED 1954

John Bead Czech 2-Hole Twin Beads are combined with 11/0 seed beads in this unique flower design with a twist. Create in many color palettes for a fun stacker bracelet, or in an ombre style for an elegant collar length necklace.

Abbreviations used in these instructions include:

Twin - Czech Twin 2-Hole Seed Bead

S11 - Size 11/0 Seed Bead

### Step 1

Cut 65 to 70 inches of beading thread. Leaving a 15 inch tail, {string (1)Twin and (1)S11} three times, plus (1)Twin. Go through the opposite hole of the last Twin bead strung and continue through the open holes of the next (3)Twin. String (4)Twin beads. Go through the last (4)Twin beads again, then continue through the (4)Twin just strung.

Turn to go through the open hole of the Twin bead your thread is exiting, which should be the top right. {String (1)S11 and go through the open hole of the next Twin} three times.

Weave through the inside holes of the (8)Twin, then turn to weave through the outside holes and S11 of the last (4)Twin. String (5)S11.

## Step 2

{String (1)Twin and (1)S11} three times. String (1)Twin. Go through the open hole of that bead and the next three. String (4)Twin. Go through all (8) Twin beads again (inside holes) to reinforce.

Turn to go through the open hole of the top left Twin. {String (1)S11 and go through the open hole of the next Twin bead} three times.

String (5)S11. Go through the outside hole of the top, right Twin bead below. Make a turn to come back through the opposite hole of that bead, then continue through the inside hole of the top, left Twin. Turn and go through that bead's outside hole. Continue to weave up through the next (5)S11, the next Twin, S11, Twin, S11, Twin, S11 and Twin.

### Step 3

Repeat Step 2 to desired length. Finish the design with a loop of (5)S11. Weave around following the thread path shown to reinforce the loop. Weave in and trim remaining thread. Repeat with tail thread for starting side.

Use jump rings to attach a clasp to the loop.
