Beginner Bead Weaving

1 hour class

It's fast and simple to make seed beaded chain! Level-up your gemstone jewelry with a complimentary color of John Bead Czech Seed Beads as your medium.

Abbreviations used in these instructions include:

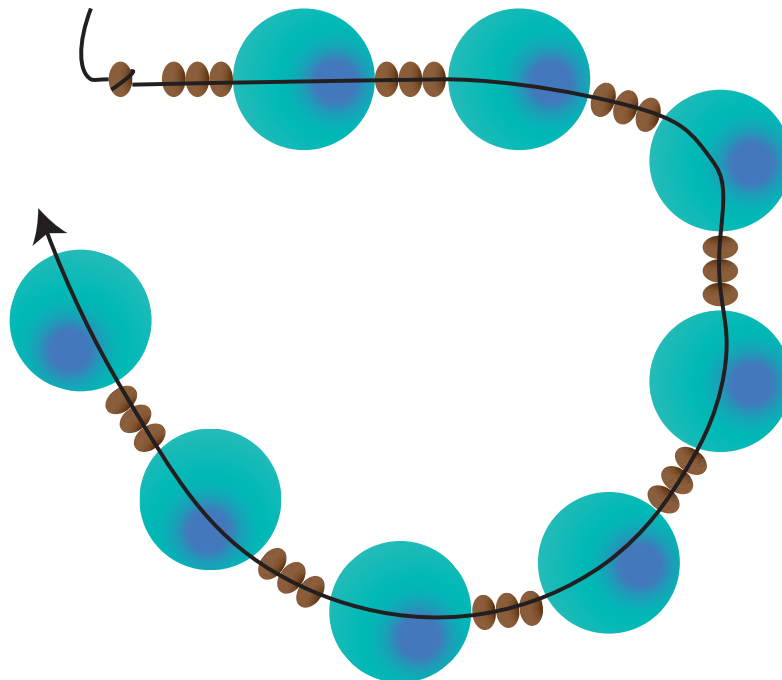

S10 - Size 10/0 Czech Seed Bead, Iris Brown

8mm - 8mm Semi-precious Gemstone Bead

### Step 1

Cut a length of beading thread that is three times the desired finished length. This design is clasplless, so a length that will fit over the head is recommended.

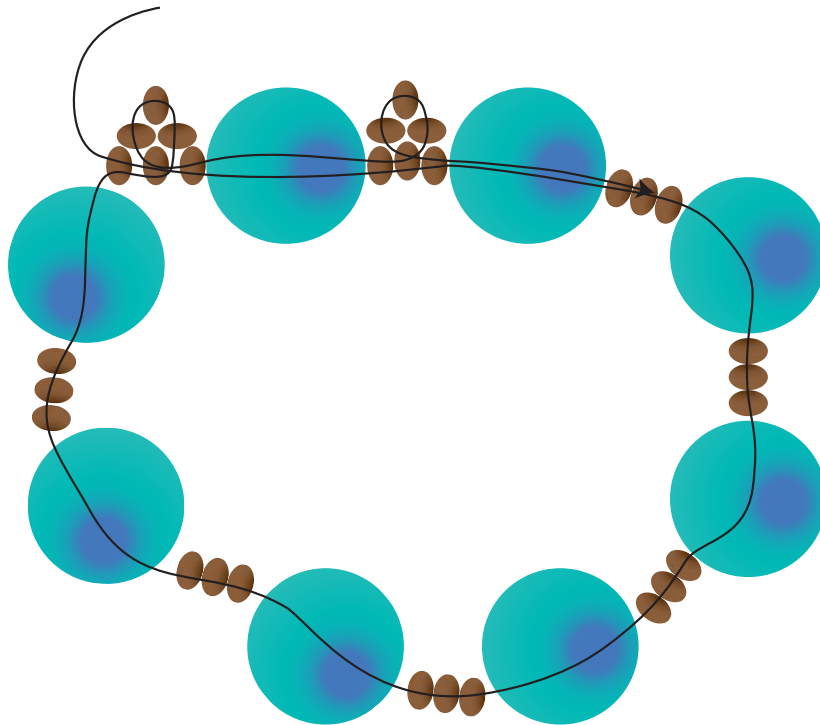

Thread a size #12 beading needle. Go through an S10 bead twice to create a stop bead. [String (3)S10 and (1)8mm bead] to desired length. The sample design is 30" long.

### Step 2

Remove the stop bead from the starting side. Go through the first (2)S10 on the starting side. Pull on the working and tail threads to tighten. String (3)S10 Go back through the second (middle) S10. Continue through the next S10, 8mm bead, and the next (2)S10.

[String (3)S10. Go back through the S10 your thread is exiting. Continue through the next S10, 8mm bead, and (2)S10]. Repeat[] around entire necklace until you reach the bead your tail thread is exiting.

### Step 3

Tie a double knot with your working and tail threads. Weave in the working and tail threads, heading in opposite directions from each other. Trim remaining thread.
