Size #10 Hard Beading Needle SKU 10332394

Chain Nose Pliers SKU 10121794

Precision Scissors SKU 10591717

Beading Mat SKU 10348546

Skill Level - Beginner

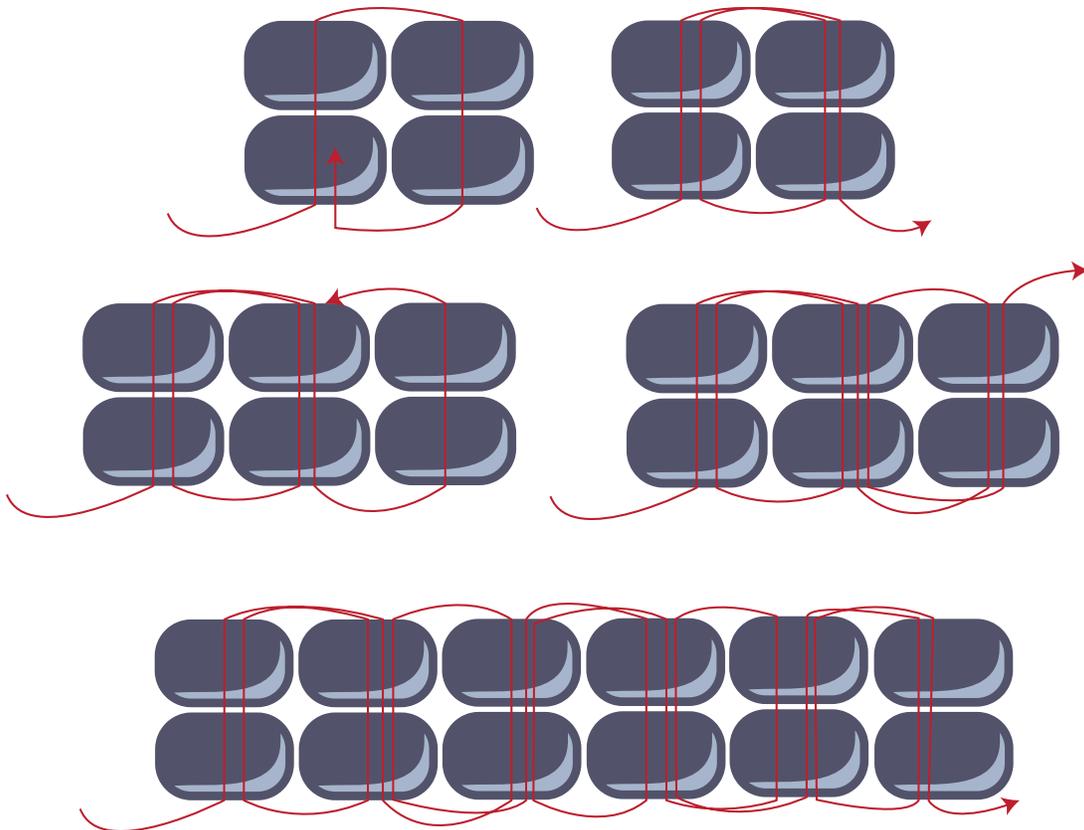

Time to Complete - 1 Hour

In this class we will create gorgeous, sophisticated sparkle! Using even-count, herringbone stitch, this beginner-friendly design wows with 4mm crystals woven into John Bead Czech glass seed beads.

**S8, Size 8/0 Seed Bead**  
Round, 4mm faceted glass rondelle bead  
Wire Guardian

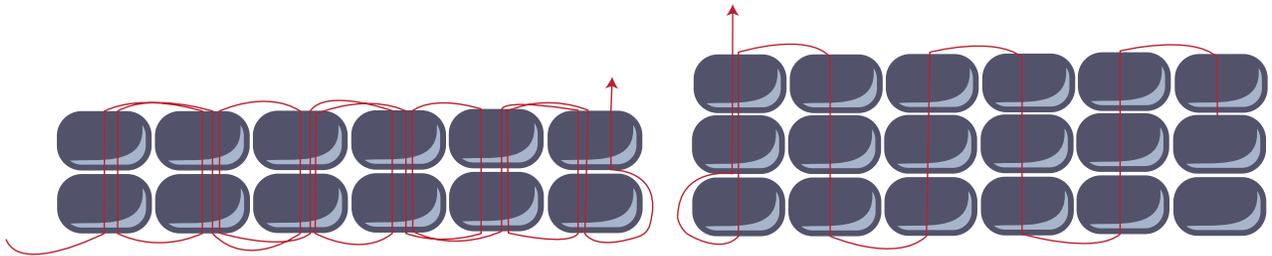

**Step 1**

Cut 90" [230 cm] of beading thread. Leaving a 20" [51 cm] tail, string (4) S8. Go back through the first two S8 added. Continue through the next (2) S8. Pick up (2) S8 and go back through the last (2) S8 added. Repeat until you have ladder stitched (6) stacks of (2) S8, as shown.

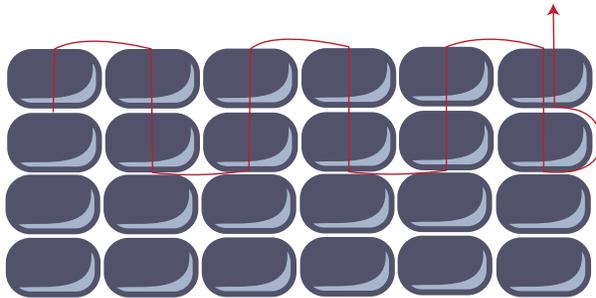

## Step 2

Step up from the last column by going through the S8 above the S8 you're exiting. Thread will wrap the outside of the bead. This won't be noticed in your finished design, and will make the band more flowy than using a traditional herringbone turn. [Pick up (2) S8. Go down through the next (2) S8. Come up through the next (2) S8] three times, completing a step up with the last repeat.

## Step 3

[Pick up (2) S8. Go down through the next S8. Come up through the next S8] three times, stepping up on the last repeat.

## Step 4

Repeat Step 3 until you have (9) rows. [Pick up (1) S8 and (1) Round. Go down through the next S8. Come up through the next S8] three times, completing a step up with the last repeat.

### Step 8

Using the tail thread, complete Step 7 to attach a wire guardian at the other side.

### Step 9

Using chain nose pliers, open a jump ring and attach a lobster claw or desired clasp to the wire guardian on one side. Attach a linked chain of jump rings to the other side. If desired, add a charm to the chain side.
