TRINKETS FOR LITTLE PRETTIES

# Girls' ring

**PRECIOSA**

# Girls' ring

*Would you like to delight a little lady with something she can make herself and be rightly proud of? Try making these cute rings with her using beads and seed beads from the PRECIOSA Traditional Czech Beads™ brand! This simple and playful tutorial will not only help develop her fine motor skills and creativity, but is also an excellent way of spending time together. Moreover, you can also make gifts for your friends!*

## Materials and tools:

Flat pressed beads in the sizes of 6 mm – 12 mm are suitable for the ring, while the best size is 8 mm.

### The ring with a flower

#### PRECIOSA Rocailles (R10)

331 19 001; 10/0;  
08A58 dark green;  
25 – 35 x depending on the circumference  
of the ring

#### PRECIOSA Pressed Bead- Flower (PB)

111 33 116; 8 mm;  
83130/54302 yellow with a gold effect; 1x

### The ring with a heart

#### PRECIOSA Rocailles (R10)

331 19 001; 10/0;  
08A98 red;  
24 – 34 ks depending on the circumference  
of the ring

#### PRECIOSA Rocailles (R8)

331 19 001; 8/0;  
16A98 red; 2x

#### PRECIOSA Pressed Bead – Heart (PB)

111 79 001; 6/6 mm;  
93200 red; 1x

- 0.25 mm nylon line; a thin needle; scissors;  
a ruler; a thicker thread or cord

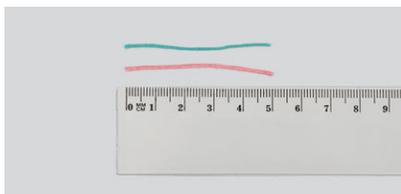

Difficulty: ●●●●●

Technique: stringing

## Procedure:

### Step 1

Measure the circumference of the finger.  
Twist the thread (cord) around your finger.  
Cut it at the site where the threads meet.  
Place it against a ruler and measure  
the circumference, e.g. 50 mm.

### Step 2

The circumference of the ring. Add 1x **R10**  
to the length of the finger's circumference.  
The internal circumference of the ring  
will be slightly smaller than that of the finger  
after the ring has been sewn and tied off.  
It is therefore advisable to add the **R10**.  
The length or circumference of the finger  
is achieved by means of the **R10**.

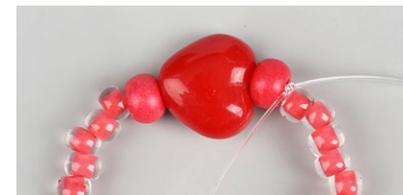

### Step 3

Prepare about 30 cm of line. Thread it into  
the eye of the needle. String a **PB** onto  
the needle. Place the line next to the ruler.  
String the rest of the **R10** to fill out  
the remainder of the finger's  
circumference. Then add another 1x **R10**.

### Step 5

With the heart. String 1x **R8**, 1x **PB**,  
1x **R8** and then **R10** for the remainder  
of the length of the circumference plus  
1x **R10**. Pass the line through them one  
more time. Pull the ends into the **R8** and  
**PB**. Cut it off.

### Step 4

Pass the line through the strung **PB** and  
**R10** one more time. Tie them off with three  
knots. Pull the ends of the knots into the **PB**  
and several **R10**. Then cut it off.
